Over the villa site are the buildings in Yelverton Road, the corner business being Messrs. Lane and Co. wine merchants.	<a href="http://www.jp137.com/day/7022.jpg">http://www.jp137.com/day/7022.jpg</a>
6826	Adelaide Villas, Old Christchurch Road	1863	50.7209, -1.8767 (NNW)	Old Adelaide Villas on corner of Yelverton Road. This view shows the Old Christchurch Road from a point in front of the centre of Beales and looks up Yelverton Road. On right hand corner seen in the picture is now a bank (Barclays?). The Midland Bank stands at a point in the garden on the left of the house. The street doorway of the villa is the spot of Lane & Co. wine merchants.	<a href="http://www.jp137.com/day/6826.jpg">http://www.jp137.com/day/6826.jpg</a>

Note! Very, very great care needs to be taken of this plate, one, if not the oldest original view negatives of any place now in existence.	<a href="http://www.jp137.com/day/6764.jpg">http://www.jp137.com/day/6764.jpg</a>
6830	Alumhurst Road, Westbourne (Poole Road end)	1870	50.7229, -1.9043 (W)	The first houses in Westbourne. Poole Road end of Alumhurst Road. The foreground shows a part of Seamoor Road which had been made, but there being no development of building on the West Common the gravelled road became for a time merely a desolate place	<a href="http://www.jp137.com/day/6830.jpg">http://www.jp137.com/day/6830.jpg</a>
7018	Ashley Villas, Old Christchurch Road	1863	50.7204, -1.8773 (NW)	Old Ashley Cottages facing Old Christchurch Road view taken from the garden of the next villa. The site of Post Office Arcade. 7030	Bath Hotel	1862	50.7179, -1.8728 (SE)	The Bath Hotel as it was in 1862, rebuilt 1879. This view illustrates a remarkable fact that when the hotel was enlarged in the late seventies a porch was erected in the highway and two portions of land also on the road were fenced in in a semi-circular form and can be seen to enclose vegetation.	<a href="http://www.jp137.com/day/7030.jpg">http://www.jp137.com/day/7030.jpg</a>
6845	Baths	1850	50.7165, -1.8758 (E)	Bournemouth Baths in 1850	<a href="http://www.jp137.com/day/6845.jpg">http://www.jp137.com/day/6845.jpg</a>

6311	Bombdr. Ridout, Bournemouth Volunteer Artillery Corps	1868		One of the first Bournemouth Artillery Volunteers. Bombardier Ridout, who in later years was Sergeant-Major. Apart from him being a good, thorough, humble citizen of the town in his time, this is an interesting record of what a volunteer artilleryman looked like on the formation of his Battery in the year 1868	<a href="http://www.jp137.com/day/6311.jpg">http://www.jp137.com/day/6311.jpg</a>

6993	Boscombe Chine from shore	1875	50.7200, -1.8434 (NNW)	Boscombe Chine showing the hotel before enlargement and previous to the Chine being laid out. Boscombe Chine in its original state, and what was called "Boscombe Spa" the thatched building covering a drinking place for the spa waters which people used to take long walks to obtain. The size of Boscombe is represented by the hotel (which was first of all a local company venture with a capital of £5,000 and failed, and then became a "school for the sons of gentlemen") and by one villa on the plateau.	<a href="http://www.jp137.com/day/6993.jpg">http://www.jp137.com/day/6993.jpg</a>
6312	Boscombe Chine from shore	1880	50.7200, -1.8434 (NW)	Boscombe Chine from the Shore. Chine Hotel in the background. Only the hotel and these two houses were built.	<a href="http://www.jp137.com/day/6312.jpg">http://www.jp137.com/day/6312.jpg</a>
6314	Boscombe Chine looking seawards	1862	50.7203, -1.8440 (S)	Boscombe Chine looking seawards. This unique view shows the chine in its original state and illustrates the characters of all the Bournemouth chines before they were drained and paths made. In those days it was a rare thing to see any person in the Chines because they were difficult to access and a long walk from town. A picnic would sometimes be seen in the Summertime	<a href="http://www.jp137.com/day/6314.jpg">http://www.jp137.com/day/6314.jpg</a>
6320	Boscombe Chine looking seawards	1870	50.7203, -1.84349 (SE)	Boscombe Chine looking towards the sea. The thatched roof covered the spot where the "spa" water came through a pipe and people drank from it	<a href="http://www.jp137.com/day/6320.jpg">http://www.jp137.com/day/6320.jpg</a>
7008	Boscombe Chine looking seawards	1879	50.7207, -1.8468 (NE)	Boscombe Chine looking seawards. He was a big fellow. All Hants policemen in those days wore side whiskers and no moustache. The Madeira Road which passes the station was only then very roughly made and the Dean Park was not yet built on.	<a href="http://www.jp137.com/day/6994.jpg">http://www.jp137.com/day/6994.jpg</a>

That was one of the first villas erected in Bournemouth and stood in the northern corner of the Glen over which the old rustic bridge crossed. The site is now covered by the premises of Messrs. Williams and Hopkins and Messrs. Beale Christchurch Road end. Note! This villa should not be confused with the Church House built twenty or thirty years later in a corner opposite St. Peter's Church. Note! The glen was a lovely spot and admired for its unique beauty. This view was taken from the old rustic bridge Westover end	<a href="http://www.jp137.com/day/6838.jpg">http://www.jp137.com/day/6838.jpg</a>

This view was taken from a point in the Grove somewhere near the north side of the Carlton Hotel, East Cliff. That house, then known as "Brunstath House" was the only residence on that side of what is now Meyrick Road and extending to Boscombe Chine. On the site of these cottages now stand the Markets and other important commercial houses. The common extended to the Wimborne Road north, Malmesbury Park on the east and to the old Christchurch Road on the west and has long since been covered with house property.	<a href="http://www.jp137.com/day/6827.jpg">http://www.jp137.com/day/6827.jpg</a>

7001	Lansdowne from Bath Road	1875	50.7217, -1.8670 (NE)	Lansdowne House - now site of the Hotel Metropole before the Imperial, Queen or shops in Holdenhurst Road were built. There were no buildings in the wood on the right of Bath Road, nor up the Christchurch Road. The house in the centre was only erected in 1861 and a villa beyond a few years later. The fencing shows how narrow the roads were. The drinking fountain (not then long erected) was of great use - a traffic in bricks from Bransgore and of timber from Poole necessitated a deal of horse traffic, and here, the poor horses were rested and refreshed by a drink of water.	<a href="http://www.jp137.com/day/7001.jpg">http://www.jp137.com/day/7001.jpg</a>

6819	Pier from St. Peter's spire	1880	50.7204, -1.8759 (S)	A remarkable view obtained from the scaffolding when at its highest erection of St. Peter's Church Spire before the cross on it was fixed. To get this I had to go up 200 feet of ladders outside and carry part of my instruments which at that time were cumbersome. A labourer carried the tripod etc. It was a perilous adventure - unfortunately the negative is not technically successful, the plate - one of of the earliest dry plates being imperfect. But the view of the sea, pier and Bath Hotel shows the Westover Villas on the right and Hinton Road where the poet Sir Henry Taylor lived, on the left.	<a href="http://www.jp137.com/day/6819.jpg">http://www.jp137.com/day/6819.jpg</a>
